## 1 Motivation

Current problem

Relevance of the problem

Hole in the literature / previous limitations

## 2 Idea

Main Idea

Innovation

## 3 Methodology

Modeling

Algorithm 1: Hello world

```
1 import numpy as np
2
3 def hello():
4     print("Ahora si con colores")
5
6 hello()
```

**Assumptions**

**Architecture**

## **4 Experiments**

**Environments and datasets**

**Baselines**

**Settings**

## **5 Results**

**Good and bad performance in different scenarios**

## **6 Critical Discussion**

**Strength**

**Weakness**

**Questionable assumptions**

**What it is not clear**

## **7 Conclusions**

**Personal opinion**

**Is it a good contribution?**

**Would I use it on my investigation?**
